Corps reviews permit application ***Permit requested from Valley County, Idaho***

WALLA WALLA, Wash. – The U.S. Army Corps of Engineers is reviewing an application requesting a Department of the Army permit for certain work in waters of the United States. The public notice regarding the permit application listed here was issued during the week of Oct. 15-21, 2006.

Public Notice 052100024, requested by Christopher Findlay, proposes to discharge 3610 cubic yards of pit run fill material to allow development of the property for residential homes and townhouses. The project is located in an unnamed wetland pond adjacent to Lake Cascade, in Valley County, Idaho. Comments must be received by Nov. 9, 2006. A copy of the public notice may be found at www.nwww.usace.army.mil/html/offices/op/rf/pn/052100024.pdf.

The Corps of Engineers is soliciting comments from the public, federal, state and local agencies, Native American tribes and other interested parties on these permit requests.

The Corps issues or denies permits for the discharge of dredged or fill material into waters of the United States under authority of Section 404 of the Clean Water Act and for work in or affecting navigable waters of the U.S. under Section 10 of the Rivers and Harbors Act of 1899.

For more information on any public notice under consideration by the U.S. Army Corps of Engineers, please visit the permit section on the Walla Walla District's website at www.nwww.usace.army.mil/html/offices/op/rf/rfhome.htm.
